Statement of Need
Diagnostic cytopathology, performs a vital role in the diagnosis and treatment of non-neoplastic and neoplastic lesions. This course is intended to advance and develop the knowledge base of pathologists in cytopathology. Current criteria and concepts based on cytopathologic evaluation and approaches to differential diagnosis are the core need for the practice of cytopathology. This course is designed to provide a practical update to cytopathologists, cytotechnologists, general pathologists and fellows/residents in training.

Course Goals and Objectives
This CME approved course will lead to improved practice of cytopathology leading to enhanced patient care. At the conclusion of this course the attendees will be able to:

- Evaluate cytopathologic criteria of various non-neoplastic and neoplastic lesions.
- Be familiar with updated terminology and reporting.
- Identify and avoid pitfalls in the daily practice of cytopathology.
- Appreciate the clinical implications of cytopathologic interpretations.
- Define the value and limitations of fine needle aspirations at various sites.

Target Audience
Cytopathologists, cytotechnologists, general pathologists, fellows and residents.

Tuition/Registration Fee
The registration fee is $705 for pathologists and $299 for cytotechnologists, fellows and residents, which includes the Tutorial, course materials, continental breakfast and coffee break. The fee does not include travel, housing or meals.

We accept Visa, MasterCard and American Express. When paying by check, it must be in U.S. currency and drawn on a U.S. Bank, made payable to WCMC/Pathology Dept.
