WCM Pathology and Laboratory Medicine
TUTORIAL ON TREATMENT OF NEOPLASTIC HEMATOPOIESIS

January 21–25, 2019
Naples Grande Beach Resort • Naples, Florida

Course Goals & Objectives
This course is designed to update physicians on the latest advances in Neoplastic Hematopathology. It will be conducted under the direction of Dr. Daniel M. Knoblauch at the Naples Grande Beach Resort located in Naples, Florida from January 21-25, 2019. The program will consist of lectures, case presentations and discussions with experts in hematopathology, pathologists, in-training and medical oncologists/hematopathologists with an in-depth discussion of diagnostic problems and controversies in the field. In addition to discussions of recent advances in the morphologic classification of hematologic tumors, the course will also emphasize cytochemical and immunocytochemical studies and molecular techniques in the diagnosis and classification of these diseases will be presented.

An extensive compilation of lectures, notes, recordings, and references citations will be made available online.

Target Audience
Pathologists, pathology-in-training and medical oncologists/hematopathologists.

General Information
The Tutorial consists of five days of lecture, case presentations and discussions. It will be held at the Naples Grande Beach Resort, 475 Seagrove Drive, Naples, FL 34105, United States • Phone: 239-257-2122. Web: http://www.naplesgrande.com/
